# Home Learning 24th November 2026

## Phonics:

Year 2: We have been working on High Frequency Words with Year 2. Below is the spelling list for this week - please can children write a sentence for each word, then practice the list for spellings as usual. If you want to practice any extra high frequency words, follow the link below.

https://www.highfrequencywords.org/hfw100fp.pdf

Because When Why How Would Here Your You're Very I'm

(please remember the difference between 'your' and 'you're')

Year 1: Please practice the spellings and write sentences for each word.

These Even New Chew Want

## Maths

Both Year 1 and 2 are working on subtractions this week. The work we completed on Monday was a challenge, so if you would like to work on Maths a home, please do some basic subtractions. We will attach some examples. These can be calculated using a numberline - which children can draw up themselves, they know how to - or using objects (such as pasta... or dare we say it, sweets!) to physically subtract amounts.

## English

Following on from our current text about animals from the African Savannah this term, we will be writing and studying poetry throughout the rest of this week. Therefore, at home, we would like the children to pick their favourite African animal and write a short poem about it, which they can then decorate however they like.
